

YACHT RACE IN
EAST POSTPONED
FOR LACK OF WIND

Challenger and Defender
Are In Shape For
Contest.

RESOLUTE CONFIDENT

Dead Calm Prevailing
Causes Postponement
To Afternoon

Aboard U. S. S. Goldsborough off Sandy Hook, July 17.—After being delayed nearly two hours to start there was not enough wind stirring to ripple the water, let alone give them motive power. Resolute, America's cup defender, and Shamrock IV, Sir Thomas Lipton's challenger got away today in the second race.

The starting signal was given exactly at 12:45 with both yachts to leeward of the starting line. The Shamrock was off in the lead but Resolute crossed the line first.

Fifteen minutes after the start Resolute was a quarter of a mile toward and holding Shamrock well. At 1:05 p. m. both yachts were still holding the starboard tack with Resolute to windward and Shamrock a trifle ahead but unable to cross Resolute's bow.

Aboard the U. S. S. Goldsborough off Sandy Hook, via wireless, July 17.—The start of today's race between Resolute, America's cup defender and Sir Thomas Lipton's challenger, Shamrock IV, was postponed because of dead calm that existed at 11 a. m. (eastern standard time) the hour originally set for the race to start.

Both Shamrock and Resolute had been towed up to the Ambrose lightship the starting point. There was not enough breeze to cause a ripple on the water.

At 10:30 a. m. the regatta committee hoisted the "G" signal flag on its boat. This was the announcement that the start of the race had been postponed until later in the day.

At that time the yachts were getting in position for the start. Captain Burton and Designer Nicholson of Shamrock had taken a small boat and were rowing around the challenger carefully inspecting every sail.

At 10:45 a. m. a stray zephyr came in from the south which gave the yachts just steerage way but was not enough to warrant starting the race.

The two boats have been pronounced A-1 for today's contest and it seems safe to state that, barring accidents, the race will see Resolute a winner on time allowance, if not first over the line. This being so, it will give each boat a win and means that at least four races will have to be sailed in order to decide the best three out of five.

Yesterday afternoon the hazy trouble that had cost her the race the day previous and is ready for anything. On each sloop the sails were lashed yesterday for a thorough drying out.

NEW TIME ALLOWANCE
The time allowance has been worked out once again. H. De Be Parsons, chairman of the race committee of the New York yacht club announced that following new measurements of the Shamrock which reduced her rating from 94.4 to 93.08 the time allowance has been definitely set at 6 minutes, 40 seconds.

The second race today was scheduled to be sailed over a triangular course. The length of the race to be 30 miles ten to a leg.

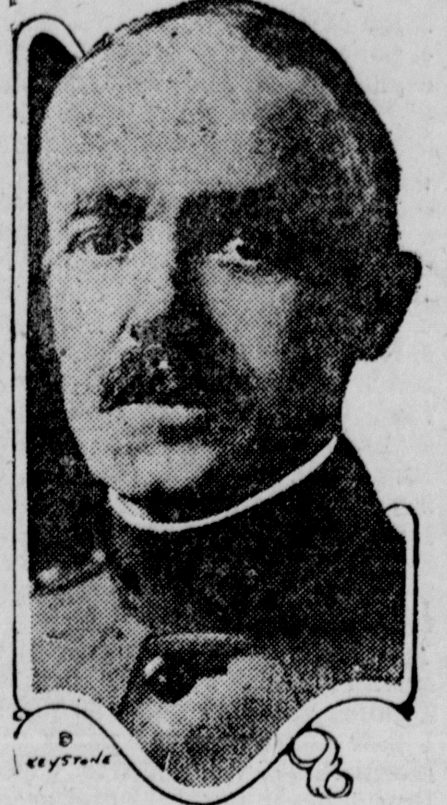

This is the sort of contest that should and probably will bring out all points of sailing qualities of the two yachts and if the weather prophets of mild breeze holds true this race should be much to the liking of Resolute.

If possible the yachts will be sent away on the windward leg of the triangle, and then the remaining two legs, if nothing happens in the weather market to interfere with the usual method of sailing such a race, will be a close reach and a broad reach, or a run before the wind.

With bright weather the order early today there was every indication that the crowd aboard pleasure yachts, excursion steamers, tugs, motor launches and craft of many other kinds will be much larger than that of Thursday when 10,000 spectators saw the initial brush between the sloops.

FIRE DESTROYS LUMBER
South Bend, Ind., July 17.—Fire, which started in the paintshop of plant No. 2 of the Studebaker Corporation spread to the lumber yards and for a time threatened to destroy millions of feet of lumber and hundreds of frame residences in near vicinity.

WILL REORGANIZE
NATIONAL GUARD

Maj. Gen. Jesse McCarter, present chief of the militia bureau of the war department, will have charge of the work of reorganizing the bureau which under the terms of a recent act of congress will be entirely reorganized January 1, 1921. The president is authorized to appoint as chief of the bureau an officer of the national guard not below the grade of major who has had ten or more years' commission service.

WESTERN OHIOANS
TO TEST STRENGTH
OF THE CANDIDATES

Californians Take Straw
Vote On the
Nominees

Los Angeles, July 17.—What is probably to be the first test of strength by Ohioans of its presidential candidates. Governor James M. Cox and Senator Warren G. Harding, will be made here this afternoon when a "straw" vote of between 10,000 and 15,000 people will be taken at the Ohio state picnic being held today at Sycamore grove.

Ideal weather marked the day for the picnic which was expected to be the biggest yet held in southern California, where they are annual events. The added interest of a political situation and the fact that it is what the Ohioans here term a "ratification" picnic to celebrate Ohio's "signal" honor in giving to the nation its two prominent presidential candidates, and to "ratify" those candidates.

Colonel John J. Stedman, for years a leader in Republican politics in Ohio, will offer the Harding resolutions of ratification and a prominent Ohio Democrat, not yet chosen will be called upon to offer resolutions endorsing Governor Cox.

Kenyon Warren, president of the Federated Ohio Societies of Southern California, comprising many thousands of members, and Lieutenant Frank M. Bering, secretary, will preside at the picnic program which includes a number of political speeches by Ohioans formerly identified with Buckeye politics.

FAIL TO DISCOVER
EVIDENCE OF ANY
ILLEGAL WORK

Elwell Case Being In-
vestigated On New
Trail.

Cincinnati, O., July 17.—Investigation conducted by Thomas E. Stone, Baltimore, supervising federal prohibition agent, failed to reveal evidence of any illegal transactions in connection with the so-called "whisky ring" in this section of Joseph B. Elwell New York sportsman and whist expert, mysteriously murdered several weeks ago.

No reports or investigations in the Ohio-Maryland division of the federal prohibition enforcement service have connected Elwell's name with any manner. Stone said, "I understand that investigations in New York have shown no basis for the suspicion."

Colonel Stone is in Columbus today to confer with the group heads of the various branch offices of the division.

TO ABANDON TWO CAMPS
Washington, July 7.—Orders for the abandonment of Camps Kearney, Cal., and Dodge, Iowa, were issued at the war department.

NEW WAR OF GREAT
MAGNITUDE FACES
EUROPEAN NATIONS

London, July 17.—A new war which threatens to develop into a conflict of great magnitude, has broken out between the French and the Arabs in Syria, said a dispatch from Beirut to the Daily Express today.

The French sent an ultimatum to King Feisal of Syria stating that they are taking over all railways in Syria and will occupy Damascus because the Arab king contested the French mandate. The ultimatum states further that the French will henceforth exercise full mandatory powers in Syria.

King Feisal ignored the ultimatum and a French army has been sent to occupy Damascus. Accompanied by tanks and airplanes another French force is moving upon Aleppo and has seized Rojak.

General Gouraud, the French commander in Syria, has 80,000 troops at his disposal.

The Arabs are said to have 100,000 rifles. There are four Arab divisions concentrated near Damascus.

The French, according to the Daily Express, accuse King Feisal of stirring up trouble against the French forces of occupation at Tyre and Sidon.

The Daily Express says that the French intend to make French coinage and the French language obligatory in the districts covered by the French mandate.

INTEREST CENTERS ON
WILSON-COX CONFERENCE

Marion, O., July 17.—The interests of the Republican leaders here are centered today on the outcome of the conference to be held tomorrow between President Wilson and Governor Cox, the Democratic nominee.

There is much speculation as to whether the two will reach an agreement on the campaign issues. President Wilson's friends are insisting that the league of nations shall be the paramount issue of the Democratic campaign. It is assumed that they are speaking for the president.

Admittedly, President Wilson insisted that the Democratic platform should carry a vindication of his league and a demand for its ratification without "nullifying" reservations.

Governor Cox has announced two reservations that he desires to see written into the draft of the league covenant. He says they are designed to safeguard the United States against being drawn into war without action by congress.

League experts here say there is little substantive difference between the league reservations proposed by Governor Cox and those written by Senator Lodge which incurred the condemnation of President Wilson.

It is said by Republican leaders that should Governor Cox yield to President Wilson on support of the league covenant as presented to the senate he will lose many Democratic votes and alienate the anti-Wilson leaders who brought about his nomination over the administration candidate, William G. McAdoo. These leaders are Murphy, New York; Brennan, Chicago; Taggart, Indiana, and others.

If Gov. Cox should break with President Wilson by failing to accept all the Wilsonian ideas he will incur the active and bitter hostility of the president and his powerful following in the Democratic party.

GERMAN DELEGATES
SIGN COAL PROTOCOL
DRAWN UP BY ALLIES

Spa, Belgium, July 17.—The German representatives have signed the coal protocol drawn up by the allied representatives.

There was a conflict over introduction in the protocol of the menace of occupation of additional German territory after Oct. 15 next if German coal deliveries were not up to the stipulated quantity—6,000,000 tons—by that date. The allies decided to drop this clause of the protocol below the signature line.

Then the Germans objected to the preamble, which declared that the decisions set forth in the document had been taken in common accord by the allied and German delegations. The Germans contended it was not by common accord but by sole will of the allies, that any further occupation would occur. After a conference all the delegates signed the protocol.

As finally adopted, the reparations will be made on the following basis: France, 52 per cent; Great Britain, 22 per cent; Italy, 10 per cent; Belgium, 8 per cent; Japan and Portugal, each three-fourths of 1 per cent. The remaining 6 1/2 per cent will be divided among Serbia, Roumania and Poland. Besides the 8 per cent Belgium is to receive she will retain the priority right to 2,500,000,000 marks, from which will be paid sums loaned Belgium by the allies.

Mr. Wilson asserted that the Volstead act was "openly violated" in Essex, Passaic, Union, Atlantic and Hudson counties, where, he declared, "there is a conspiracy to foster the liquor traffic." He said he had furnished federal authorities with names of cafes and saloonkeepers from whom he had obtained liquor.

"There is no conscious effort being made to enforce the Volstead act," he added, "due to the desire of politicians to obtain big campaign funds from liquor and gambling interests."

WOULD COMPLETE
CONFERENCE PLANS

Chicago, July 17.—While plans were being made for a conference this afternoon between representatives of the striking maintenance men and the street car company, Williston Fish, chief of the surface lines, announced this morning that 1,611 cars were in operation and that a few more hours would see normal transportation efficiency restored, even during the rush hours. It was officially reported that all power sub-stations were being manned rapidly.

OHIO HAPPENINGS

Berger to Run Again.
Milwaukee, July 17.—Victor L. Berger, Socialist, who was twice refused his seat in congress after being elected from the Fifth Wisconsin district, was selected by his party to run at the election in November. Henry H. Bodenstab, who was defeated by Berger last year, is again seeking the Republican nomination.

Found Dead in Bed.
Cincinnati, July 17.—Mrs. E. D. Roberts, wife of the assistant superintendent of the Cincinnati public schools, was found dead in bed at her home here. Her 3-year-old son was in bed with her.

ARMY FLYERS ON FLIGHT TO ALASKA

Starting on one of the most picturesque flights ever undertaken by the United States Army Air Service, four big army planes took to the air at Mitchell Field, Mineola, on the first leg of their long journey to Nome, Alaska. The planes will cover approximately 9,000 miles, and it is estimated the trip will take forty-five days. The primary object of the flight is the establishment of an aerial military route to Northwesternmost America. Photographs will be made of the route. No attempt at speed will be made, the planes flying under a schedule which calls for easy stages of from 200 to 350 miles a day. In the photograph, from left to right are: Captain St. Clair, commanding officer; Lieutenant Clifford C. Nutt, flight commander; Lieutenant Ross C. Kirkpatrick, Lieutenant E. H. Neer, and Lieutenant C. E. Crumie. Sergeants English, Herliques and Viera will also make the flight.

HARDING SPEECH OF
ACCEPTANCE SHORT;
MARION DRESSING UP

Senator Puts the Final
Touches To His
Address

Marion, O., July 17.—Senator Harding's acceptance speech, which is to be delivered at the notification ceremonies here on July 22, is expected to be shorter than most addresses of that character, occupying less than four printed columns.

Since he came here from Washington, Senator Harding has been almost continuously at work, and the walks and golf games which he mixed with business at the capital have been omitted.

Senator Harding said he had given no cause for offense to the memorial committee of the American Legion, which has been reported as resenting his cancellation of a tentative speaking date at Memorial park in St. Louis on July 25.

The invitation, the candidate said, had appealed to him very strongly, and he had accepted tentatively, only to find later that the date fell between his speech of acceptance and that of Governor Coolidge, the vice presidential nominee. Certain courtesies, which always had to be observed in such matters he declared, had made it inadvisable that he speak anywhere during that period.

Marion is dressing up for the notification of Senator Harding, to which most of the people here are looking forward as the greatest event in the city's history. Foundations were laid for a long court of honor, made of decorated wooden pillars and arches, to stretch along Mt. Vernon avenue, on which the Hardings live, and storekeepers and householders began to freshen up the patriotic embellishments which have given all the town a holiday appearance since the senator's home-coming. At Garfield park, where the notification ceremonies will be held, painters and carpenters are making over the county fair auditorium.

Harding Says "No."
Hartford, Conn., July 17.—Senator Warren G. Harding, Republican candidate for president, does not intend to ask or advise Governor Holcomb to call a special session of the Connecticut legislature to ratify the federal suffrage amendment. A query on these points sent to Mr. Harding by the Hartford Times brought the reply, "I answer no."

WOMAN CHARGED
WITH HOLDUPS

Columbus, O., July 17.—That she took part in three holdups within the past three weeks and was one of three women who stabbed Samuel Pickens, 45, North Market master, here last week is the claim the police make today against Mrs. Hazel Mack, 27, colored, who was placed under arrest.

Pickens' condition is serious. Confined in a hospital, he is suffering from five wounds. One pierced his right lung and another entered his abdomen. The women robbed him of \$47 before stabbing him.

HEAVY FIGHTING HAS
STARTED IN THRACE

Constantinople, July 17.—Heavy fighting has broken out near Adrianople in Thrace, according to a report reaching British headquarters today. Adrianople has been cut off from communication with the outside world since Thursday night.

It is probable that the battle mentioned in the foregoing cablegram is between Greek and Turkish nationalist troops. The Greeks recently put an army of occupation in Thrace. There have been persistent reports, however, that the Bulgarians were mobilizing and preparing to resist the advance of the Greek occupation in Thrace. Part of Thrace was held by Bulgaria before the world war.

EARTH TREMORS
CAUSE EXCITEMENT
IN LOS ANGELES

Seven Shocks Result In
Near Panic In West-
ern City.

DAMAGE IS SLIGHT

Older Buildings Suffer
Most As Quakes Rock
Small Area

Los Angeles, Cal., July 17.—This city and suburbs were thrown into great excitement yesterday by four severe earthquake shocks.

The shocks indirectly caused a number of injuries to men, women and children and slightly damaged several buildings, chiefly old ones, but none to a great extent. While the shocks seemed to center in Los Angeles, some of them were felt more than 30 miles away.

An unusually warm morning caused from some citizens the remark: "Good earthquake weather." It was said in jest and none was more surprised than those who made the remark when the first tremor came at 10:10 in the morning. It felt much as does the sudden stopping of a streetcar, operated by an inexperienced motorman, only that the tremor produced the unpleasant sensation multiplied by many times.

Excitement, in many cases hysterical, followed the first shock, and had hardly been calmed when at 1:27 in the afternoon came the second, followed two minutes later by the third, and then a fourth at 6:13. The two in the afternoon were sharper than that of the morning, and the agitation of the citizens became prolonged.

Scenes of Near Panic.
Public places were scenes of near panic, some people running for the open air, some fainting, some stopping to pray. Many gathered at the street intersections waiting to see what would happen. Others, who felt they must be on their way, walked down the middle of the streets with watchful eyes on the buildings. Many sought Pershing square, in the heart of the downtown district, as a sanctuary.

Mortar was jarred from brick walls and plaster from ceilings; cracks appeared in some of the older structures, a water main was broken, a few copings and chimneys fell, part of an embankment collapsed, throwing dirt and brick into the street, and plate glass windows in some of the downtown department stores were broken.

Perhaps the greatest clamors came from the prisoners in the county and city jails. In the former, 400 prisoners felt the morning shock with comparative calm, but became wildly excited at the first of the two in the afternoon. They yelled, shook the bars of their cells and screamed to be taken out. The turnkeys were trying to quiet them when the last tremor came. The resultant uproar lasted an hour.

For hours the receiving hospital maintained by the city was crowded with women and children, most of them having fainted in the excitement of the trembles. Some, however, suffered more serious accidents. Private and emergency hospitals were overcrowded with injured and fainting cases. Adding to the excitement was a fire alarm in which a piece of coping fell from a building at Main and Market streets, breaking a fire alarm box. When the fire department responded some of the excited persons brought out the city ambulances by telephoning to the police department that a number of persons had been injured.

BOLSHEVIK TROOPS
ADVANCE NEAR MINSK

London, July 17.—Russian bolshevik troops have advanced 35 miles south west of Minsk, occupying several villages, said a soviet war office communique wireless from Moscow today.

"After fierce fighting in the region of Smorgon we occupied Solovki." The foregoing cablegram makes it evident that no armistice has yet been concluded on the Russo-Polish battle front despite the efforts of the allies.

FLYER REGAINS
POSITION ON TRIP

Scranton, Pa., July 17.—Captain St. Clair Street, commander of the Alaskan flying expedition, who was lost in the fog in the first lap of the journey on Thursday and forced to a landing at Elmhurst, near here, resumed his flight today taking the air at 8:10 a. m. He will join the other three army flyers at Erie, Pa.

RAILROAD IS WARNED

Washington, July 17.—Railroads of the country were warned by the Interstate Commerce Commission to refrain from confiscating coal consigned to Government departments and to other public utilities. No indication of what action could be taken to put an end to the practice was given by the commission.

GERMANS WILL FORM NEW REPUBLIC
ON RHINELAND SAYS GENEVA WORD

London, July 17.—Information has been received in Geneva that a republic is shortly to be proclaimed in the German Rhineland to be known as the Rhenish republic, according to a Geneva dispatch to the Daily Express today.

XENIA COUNTRY CLUB FORMED FRIDAY EVENING AT C. OF C.

The Xenia Country Club was born at a meeting of enthusiasts of the country club idea held at the Chamber of Commerce rooms Friday evening. Over fifty people attended. John W. Prugh was elected president of the temporary organization which will get the club on its feet and serve as its head until such a time as the full membership can vote on the project. L. C. Tingley of the Chamber of Commerce was elected temporary secretary and H. S. LeSourd, treasurer.

A temporary executive committee will be formed consisting of these three officers and James E. Kelly, R. S. Kingsbury and John D. Steele, Jr., who will act as directors. This organization will assist in forming the policies of the organization and arranging the campaign for stock sale and membership.

Dr. R. Kent Finley, chairman of the site committee, reported that his committee had looked favorably upon the present Springfield pike water works location as a site for the new club, but also had in consideration two other sites that might be available. The committee was instructed to give further attention to the other sites and give a final decision at the next meeting.

For the purpose of familiarizing prospective members with the water works site a picnic will be held at the place next Wednesday afternoon from four until eight o'clock. All those interested in the project are invited to be present and bring basket lunches. Coffee, lemonade and ice cream will be served free by the committee and unattached young men will also be provided with lunch. The committee in charge consists of Mrs. James A. Kelly, chairman, Mrs. Nelle Schuster, Mrs. R. Kent Finley, Mrs. James Wilson 3rd, Mrs. R. S. Kingsbury and Jacob Kany, who will assist in the arrangements and will see that tables are provided for the picnicers. It was suggested at Friday's meeting that each person present call at least five others and urge that they attend the picnic in case they are interested in the proposition.

Immediately after the meeting the executive committee met and appointed a temporary membership executive committee consisting of Dr. R. Kent Finley, C. A. Wenner, A. H. Finley, C. L. Jobe, Mrs. R. S. Kingsbury, Mrs. James A. Kelly and James D. Adair. This committee will assist in disposing of stock in the club and in securing memberships.

Considerable interest and enthusiasm is being shown in the project for a country club here and backers feel certain that the proposition will easily go across. The plan is for a club house, dining room, boating, bathing, fishing, golf course and tennis courts.

BEAUTY CHATS

Occasionally my conscience troubles me—when I think of all my thin friends who are endeavoring to get fatter. It troubles me particularly when I write about reducing—because there are probably as many people trying to get fat as there are people trying to get thin.

But then, you know, it's harder to get fat—and I say this to encourage those who are too stout, not to discourage those who are too thin. For if you eat less, all that happens is that you reduce. Whereas if you eat more, it frequently happens that you get indigestion, and then partial starvation follows as a matter of course.

So the thing for the thin girl to do, is to take something that will not interfere with her normal appetite, yet that will supplement her meals. And here are a few suggestions (incidentally, I have personally tried them all, and I know they "work" for I've gained weight when I was faithful to them):

Eat extra meals—preferably before going to bed. Thin people usually eat but little, and need food frequently. Take the egg and milk drink—a beaten egg, two or three tablespoonsful of chocolate syrup, a glass of milk, a tablespoonful of malted milk and as much cream as you can get in, all mixed together in a big glass and drunk before going to bed. It's the most delicious thing you ever tasted! Or take one or two tablespoonfuls of olive oil before, with, or after each meal—plain, or in a little grapejuice, make a gruel by cooking oatmeal in milk, straining off the liquid and mixing it with cream and a little sugar. Drink a cupful every night.

"Jack"—It is possible that the continued use of alcohol on your scalp for so many years dried the hair and so induces early grayness. It is also probable that the trouble does it. It is likely that you are nervous and subnormal in health, and that always affects the hair.

I would advise you to use oil on the scalp as much as possible, and to massage the hair every night. If you can get treatments with the electric vibrator, do so; violet ray treatments could help too.

Mrs. L. P. B.—If your skin is dry, don't use glycerine, for this is drying. It does keep the complexion soft and white—but it would not have that effect on a skin already rather dry.

Blondie—If the condition that causes the mouth breathing is corrected, the mouth itself will gradually be improved in shape. This is a matter of years, but then it's worth waiting for.

Marjorie K.—Kerosene won't hurt the hair, but should not be used to often—indeed, why use it when pleasant things and better for the scalp.

MARKET AND FINANCIAL NEWS

STOCK

While many critics predict easier call money until crop moving begins in earnest, the indications are that time money will continue tight. The average brokerage house does business on a larger percentage of time money than of call money, and the importance of its influence upon future trading can hardly be overestimated. Traders are naturally fearful of erratic and unexpected jumps in call money.

Professionals are continually testing that the nation is passing through a trying period of readjustment. The recent setback and hesitation after a somewhat pronounced advance prove that the market is vulnerable. Many unfavorable factors are present in the industrial situation.

GRAIN

Corn and oats will lose part of the attention which they have so long monopolized following the resumption of trading in wheat future July 15. Wheat has always been the leader in speculative dealings. The coarse grains sell largely in a domestic market. Wheat is sold internationally. The recent heavy corn movement is thought to have reached its maximum. Accumulations at principal centers are appreciable, but not burdensome. Receipts will continue moderately large, the trade believes. The black rust scare gave corn considerable support, but in different sections was counterbalanced by favorable growing conditions and anticipated improvement over the month as regards total yield.

LIVESTOCK

While best grades of cattle, hogs and live mutton are in continuing good demand, there is a distinct limit to what the consumer will pay, as recent setbacks prove. With native grassers due to enter into competition with western stock the trend in medium to poor grade cattle is downward. Descending values naturally halt the current movement but each substantial advance attracts fresh supplies. Growers in the north west are preparing to ship cattle early. Stocker and feeder trade is of small volume with no revival probable until after the wheat and oats harvest. Heavy packing hogs have been a drag on the market, partly due to large accumulations of lard. Heavy importations of frozen lamb are in prospect as are liberal receipts during July of native stuff.

COTTON

Bulls in the cotton market find cheering and not uncommon belief that futures have been oversold during the past few weeks. Weather reports and news of conditions do not warrant unqualified bearishness. Confidence that textile stocks the world over are a placed and that signs of a revival in the goods trade will soon be forthcoming, is frequently expressed. The National Ginners' association report was less bearish than had been expected. June consumption of cotton in the United States is figured as much above the corresponding total last year. While no pronounced bull movement can precede a partial recovery of strength in the goods trade the market tone in this raw staple shows unmistakable improvement.

WOOL

Sales of raw wool are scattered and at prices often lower than prices hitherto prevailing. The current series of London colonial wool auctions have shown a slow and easy tone. English mills have suffered from a stoppage of new orders, although in less degree than American plants. When the American Woolen company mills will resume not even

their president can say, but the enforced idleness can hardly extend beyond August. The growers suffer most by the reason of conditions in the goods market, partly because the banks are naturally conservative in estimating the amount of loans. It is reported that eastern commission houses are unwilling to advance more than 25 cents a pound on western wool. Apparently there is a surplus of wool in South America and in Australia. Still lower prices may be in store.

METALS

The domestic iron and steel market is quiet and export inquiries have fallen off. Meantime the coal priority has produced a serious condition. Accumulations at the mills are very large. Production holds up surprisingly well, all considered. Recent advances in pig iron are noted.

TRIPLE WEDDING CONDUCTED

Valparaiso, Ind., July 17.—A triple wedding in which a mother and her twin daughters took part was solemnized here. Mrs. Lillian Zane was married to John H. Ively while her children, Cora and Nora became brides of William Baker and Harry Erler respectively. All will make their homes in this city.

TROOPS TO TEHUNTEPEC

Vera Cruz, July 17.—Speculation was aroused here by the departure of three trains carrying troops in the direction of the Isthmus of Tehuntepec.

WITH THE WOMEN OF TODAY

By Edith Moriarty

The women of the country are still confident of the ratification of the Nineteenth amendment. When the ratification has become history the women will celebrate the triumph of their century-long struggle for political equality, within the capitol's walls. The suffragists have only once before had the building turned over to them. In contrast to the celebration now being planned, the occasion of their former meeting in the rotunda was a memorial service for the beautiful Inez Milholland Boissevain, the first suffrage martyr in this country, who died during the campaign in the west.

The jubilee will mark the victory for which Inez Milholland and numberless other women have worked and hoped. Plans for a brilliant ratification celebration have been under way ever since the thirty-sixth state seemed near a possibility. The jubilee will be under the auspices of the National Women's party.

Mrs. Marie Moore Forrest, a member of the advisory council of the woman's party and director of several spectacular pageants in Washington, D. C., heads the committee in charge. Most important of the ceremonies will be the presentation to Statuary Hall in the capitol by the Woman's party of the busts of three suffrage pioneers, Susan B. Anthony, Elizabeth Cady Stanton and Lucretia Mott. The busts of these three great leaders will be placed among those of men great in American history. The statues are the work of a woman, Mrs. Adelaide Johnson, the famous American sculptress. Only one other woman is now honored in the national hall of fame—Frances E. Willard.

Prominent men and women in all parts of the country will attend the jubilee and every woman's organization in the country has been asked to send representatives. Now the only thing necessary is the thirty-sixth state.

A WOMAN OF YESTERDAY, TODAY AND FOREVER

If you want to remain young don't wear a corset, says Sarah Bernhardt. Also she gives a few more "tips" on how to retain youthful agility, and inasmuch as she intends to come to the United States at the end of the year, although she is nearly eighty years old, her advice has some merit.

"Moreover, do not eat only what you like, but eat moderately of everything and feed yourself just enough to keep healthy.

"Take a good rest frequently during working hours, and do not worry about anything.

Counsel along these lines, she admits, may be irksome to busy Americans, and so she added another commandment for the special benefit of involuntary prohibitionists: "Drink only water."

RIVAL A. L. NINES MEET ON SATURDAY

The baseball team of Joseph P. Foody Post, No. 95, American Legion donned new uniforms Saturday afternoon for the second official clash of the season with the team representing Wilbur H. Thomas Post, No. 159 of Jamestown.

The game was scheduled to be played at the O. S. and S. O. Home. Both teams are equipped with new uniforms and other equipment and both are striving to get the edge on the series with this game. The local Legionnaires won the last time these two nines met.

GOOD SAUCES.
Raviole Sauce.—One cup thick cream sauce, one-half cup mayonnaise dressing, two teaspoons salt, one teaspoon paprika, one well-beaten egg, three tablespoons of finely grated onions, three tablespoons of finely chopped parsley, three tablespoons of finely chopped green celery leaves. Beat to mix and then heat until very hot and then serve.
Vinaigrette Sauce.—Six tablespoons olive oil, three teaspoons of either vinegar or lemon juice, one-quarter teaspoon paprika, one-half teaspoon salt, dash of cayenne, one tablespoon chopped parsley, one tablespoon chopped chives.
Have the bowl very cold and add a small piece of ice about the size of a hickory nut, salt and pepper, adding gradually the oil, stirring rapidly. When thick and creamy and the oil all added gradually pour in the vinegar, continuing the rapid stirring. Put in the finely chopped chives and parsley and use at once. This is especially nice with cold asparagus.
CAKES FOR CAMPERS.
Devil's Food Cake.—One and one-half cups granulated sugar, one-half cup butter, three eggs (the white of one saved out for the frosting), teaspoon vanilla, one rounded teaspoon soda dissolved in one cup of sour milk. Add two squares of baker's chocolate (melted), and two cups flour.
Ribbon Cake.—Use one-quarter pound butter, one-half pound sugar, three eggs, one-half pound flour, one level teaspoon each of cream of tartar and carbonate of soda and one-half small teaspoon vanilla.
Beat butter and sugar to cream, then beat in the eggs one by one. Pass the flour, cream of tartar and carbonate of soda through a sieve. Add the milk to the mixture and lightly stir in the flour. Divide the mixture into three portions.
Have three round sandwich tins greased and ready. Put one portion of the cake in as it is. Color the second portion a bright pink and flavor with essence of lemon. Dissolve two teaspoons of cocoa in one tablespoon water. Stir into the third portion and flavor with vanilla.
Bake in moderate oven. When cool put plain cake underneath, the brown and pink on top, with layer of icing between each and the rest on top.
Icing: Mix confectioner's sugar and cold milk together to a stiff paste and spread with knife.
Cheep Fruit Cake.—Boil together for fifteen minutes one cup of raisins, one cup currants, one cup of brown sugar, one cup of water, one tablespoon sugar, one teaspoon each of cinnamon, cloves and ginger. Let cool; add one pint flour, one-half teaspoon salt, one teaspoon baking powder, one teaspoon soda in one-half cup warm water. Add soda last. Citron and nuts may be added if wished.
Bake in slow oven for one hour. This cake will keep for many months.

LIPTON REGRETS ACCIDENT TO BOAT DEFENDING CUP

New York, July 16.—The victory of Shamrock IV in the first race against the Resolute was a rather hollow affair.
Sir Thomas, the genial Irish baronet, looks at it that way today, and while the crew of the challenger is siphon like they realize that they have their work cut out for them if they are to continue winning.
"I'd much rather not accept a victory due to an accident," said Lipton. "I would willingly agree not to count the race if they want it that way."
Such is the sportsmanship of the veteran yachtman from Ireland.

The Teeth of the Tiger

AN ARSENE LUPIN STORY
A PARAMOUNT-ARTCRAFT PICTURE

Old man Forbes murdered! His young wife and her lover in the hands of the police. Arsene Lupin, arch-crook, accused and missing. No tangible clue but the marks of two rows of teeth. Here in the "house of mystery," the trusted physician tying the dead man's niece to a chair, so that her "fool mouth" would be closed when he blew the house to atoms. Then suddenly that cold grim voice—the voice of the "tiger"—and the click of an automatic! David Powell, Myrtle Stedman, Marguerite Courtot and Charles Gerard in one of the greatest mystery stories ever screened.

DISSATISFACTION
Chapter 65
Often I said to myself that if only I could find it there must be something different I could do. I was out of all notion that my fashionable education might be of some help to me, but it seemed as if a girl of good appearance, possessed of common sense and honesty, might do better things than wait upon people in a cheap restaurant.
But I dared not throw myself out of employment and I could not look for anything better while at the restaurant. I hadn't the strength. At times it seemed that I could never go on, I was so exhausted. And yet I did better than at first. To get home, crawl into bed as soon as I possibly could—nearly always I had something to do, mending, washing something for the next day and so forth—was all I could accomplish. I was tired all the time as I had little courage to look for anything better, though the thought was almost constantly in my mind.
Mary was, I think perfectly satisfied. She often said it was easy compared to the sweat shop work, so making me wonder what that could have been like. But she knew I was dissatisfied and seemed to think it only natural that I should be.
"You ain't been used it, Zena, and I have. You see a girl gets used to hard knocks when she ain't never had nothin' else. I don't blame you a bit for wantin' to get something easier."
"It isn't the something easier," so much, Mary—though this is terribly hard at times—as it is that I can't see any future in it. I only earn enough to keep me going, and send Mother so little I am ashamed because of Aunt Susan. If I could get into something where by hard work I could improve my position I would feel better about things. But I get terribly discouraged at times.
"Don't wish you'd married Moore, do you?"
"No, I never think of him." Which wasn't quite true. I did think of him once in a while, but only to wonder if he had really cared and if I had hurt him.
"Keep a stiff upper lip, Zena. Something better will turn up some day. I have to see you fret."
I often caught Mary watching me closely, and I knew she felt anxious when I worried. I had grown very thin and had lost my color. But I was well enough and told her frequently that I was perfectly all right that I didn't want to be fat.
"You'll slip down a crack in the sidewalk if you get any thinner," she said in reply. I'd hate to have you disappear like that Folk might think I had put you out of the way because I was jealous of your good looks."
"I haven't any nowadays, so don't worry on that score."
"Yes—you are pretty, Zena, but look so worn out. But you are you. I am worn out. But you are you, and so is every girl who works as hard as we do. So don't think anything about my looks. Just help me think of some way to find something different to do—something where I can advance by hard work."
"All right I'll get my think tank to work. But—I—why I should hate to stay there with you gone, and—"
"I'm not gone yet," I interrupted. Then when I asked Mary what she had intended to say, she, acted embarrassed and answered:
"Oh, nothing!"
"Mother wrote begging me to try and come to them for the holidays so increasing my depression, I replied that it was impossible then saved and scribbled in every way possible so that I might send her and Aunt Susan a nice remembrance."
"I guess it is good for us to have our mothers to take care of." Mary said as we planned for them. "It keeps us from wasting our money. But ain't it queer that we should both have a mother to work for?"
"It is rather strange that we should have found each other, but as for working for our mothers, I imagine many girls do the same. And why shouldn't we, Mary? They worked for us, took care of us when we were little and needed them. Turn about is only fair."
"I'd like to know your mother, Zena. I think she must be a great lady."
"What make you think that?"
"Because if she wasn't, you'd be different—more like me."
"I only hope Mary I may be as good as you are," I replied and meant it. Mary Murphy was good all through about is only fair."

CONTROVERSY OVER FRIEDMAN ESTATE SETTLED; WILL IS HELD

Settlement has been made of the controversy over the estate of Mrs. Tillie Friedman, and by agreement a verdict sustaining the will was returned in common pleas court in the case brought by Isadore Friedman against Joseph Barnett as executor. Mrs. Lena Barnett of Cincinnati, who was bequeathed a fourth of the estate by Mrs. Friedman, surrendered her interest in the property, and Mr. Friedman also relinquished his dower interest. The whole estate, valued at about \$15,000, will thus go to the Friedman children—Nanette and Robert. Mr. Friedman is guardian of the children.

BOY IS SMOTHERED TO DEATH IN GRAIN BIN IN BOWERSVILLE

Sucked into the swirling depths of shelled corn in a hopper at the grain elevator of The Greene County Elevator Company at Bowersville, Fred Thomas, aged 11, son of Clement Thomas, proprietor of a meat store in Bowersville was smothered to death at 5 o'clock Friday afternoon. Raper Jones, the same age, son of A. E. Jones of the Orchard Grove Pike, who fell into the hopper at the same time is alive. He was saved from suffocation by his straw hat, which fell over his face and protected mouth and nostrils from the grain. The Jones lad said that he and young Thomas became dizzy as they sat on the ledge watching the swirling corn as it fell from the bin above and was sucked through the immense hopper which held 3500 pounds of grain. Both tumbled in head foremost. A lad named Bowermaster who

was with them ran frantically screaming, and his cries attracted the attention of Forest Pickering and Milton Oliver, elevator employees, who rushed to the aid of the lads. Within a few moments other help arrived and the flow of corn was stopped and with scoop shovels the grain, The Jones lad was reached in any way. The body of the Thomas boy was below. He was dead when taken out. Dr. Ream of Bowersville, who was there at the time, worked

for an hour in a vain effort to resuscitate him. The body was removed within five minutes of the time he fell into the hopper. The Thomas child is the second in a family of five children. His funeral will be held at 3 o'clock Sunday afternoon at the home. The Jones' mother is now a patient at the McClellan hospital where she underwent an operation recently. She has not been told of the accident.

THE "FORTY-EIGHTERS" CONVENTION TURNED OUT TO BE A PLAIN EVERY DAY RIOT.

The third party's chances of becoming a positive factor in this year's political campaign were smashed to bits in the Chicago convention inspired by socialism, dominated by radical laborites and swayed by the mob spirit of disorderly emotionalism. The Committee of Forty-eight was battered and broken. Efforts were being made to salvage something from the wreck but the undertaking lacked hope and guidance.

The proposed union of the minority political parties failed. The convention became what it was destined always to be, an assemblage of labor extremists controlled by men placed beyond the pale of organized labor's political principles by Samuel Gompers and other leaders of the American Federation of Labor. The farmer tag to the party label means nothing. There was scarcely a real tiller of the soil in that mass of howling, shrieking men and women. There were some of the type described by Herbert Hoover as those who "farm the farmer."

John Fitzpatrick, the Chicago labor leader, who set out to establish a radical labor party in defiance of Mr. Gompers and the American Federation of Labor, having failed in the steel strike as in the outland railroad strike to gain predominance for his views. Fitzpatrick now proposes to try his hand with politics, class prejudice and industrial unrest being the weapons of his choice.

It would be too bad for the cause of the radicals composing this convention and hoping some day to take over the management of the affairs of the United States if a casual visitor to the "Forty-Eighters," judged their conduct of government by the procedure of their convention. It was bedlam most of the time and disorder always.

One of the men at the press table put it rather well when he shouted across a three foot board to make himself heard:

"Political writers have no business at this convention. We ought to leave and make room for the police reporters. This is just a plain everyday riot."

AN AERIAL VOYAGE 9,000 MILES LONG, AND PARTLY 14,000 FEET HIGH.

How wonderful are the changes of nearly everything about a man during the period of a single lifetime. In the past one hundred years we have had added to our repertoire of comforts, Steam, Electricity, the Telegraph, the Telephone and the Railroads. And think of what these five things alone mean to us, in all their varied manifestations. Take each one of them, separate from the others, and what would we do without it?

What next? Who knows but that it may be the "Flying Machine"? Such marked improvements are made in inventions nowadays, that instead of taking four days by the overland train, we may, ten years hence, just fly over there in one-fourth the time.

Just now we are reading in the papers of the wonderful exploit our government is making, by the services of a number of our Airmen, the great feat being spectacular enough to attract the attention of the whole world.

Four army airplanes, comprising the Alaskan flying expedition, left Mitchell Field, Long Island, at 12:33 o'clock Thursday afternoon on a 9,000-mile round trip flight to Nome, Alaska, one of the longest and most difficult air trips that has been attempted in the Western Hemisphere.

Official reasons given for the flight are the establishment of a direct air route to Asia, for the movement of air service units in event of need and photographing uncharted, inaccessible areas of Alaska that would require three years for ground surveying.

The itinerary and consecutive distances in miles to be covered are: Mitchell Field to Erie, Pa., 350; Grand Rapids, Mich., 300; Winona, Minn., 310; Fargo, N. D., 320; Portal, N. D., 290; Saskatoon, Sask., Canada, 280; Edmonton, Alberta, 300; Jasper, 200; Prince George, B. C., 200; Hazelton, 220; Wrangell, Alaska, 210; White Horse, Yukon, 300; Dawson, 250; Fairbanks, 275; Ruby, 240; and Nome, 300.

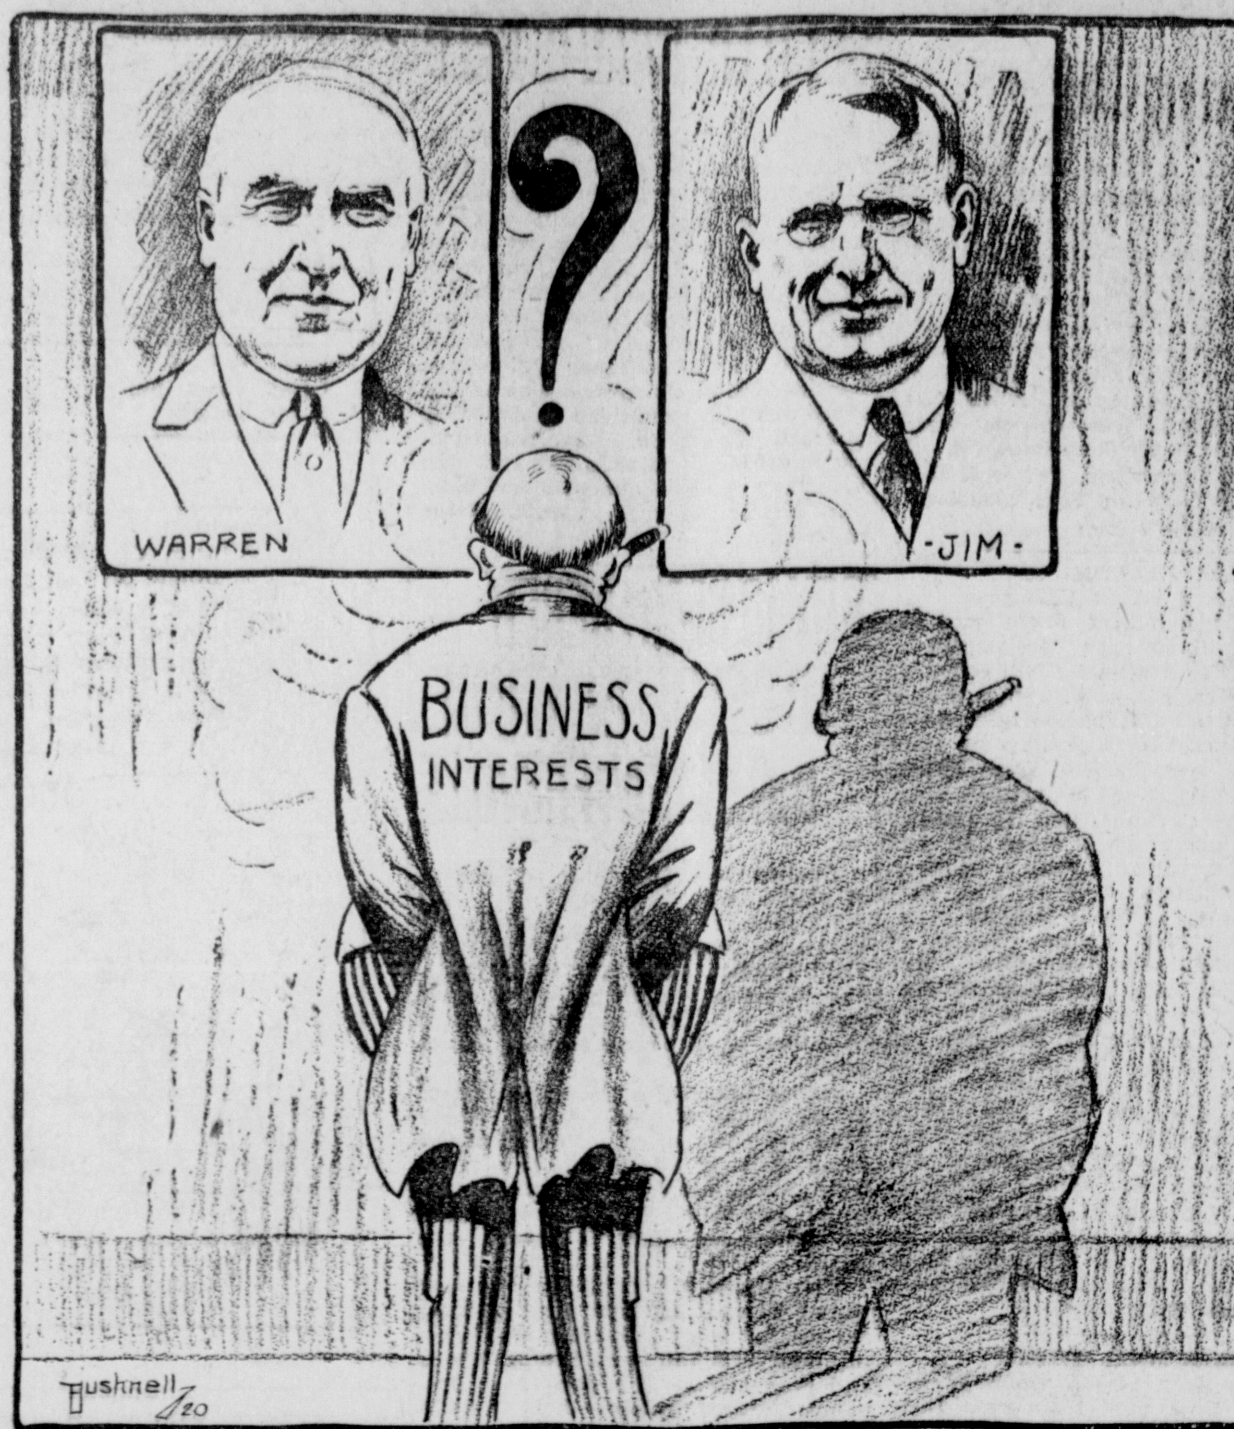

While the London-to-Australia flight in 1919 was for 11,500 miles and other air trips have been made for greater distance, it was explained that they were over well-known atmospheric routes.

The Nome fliers, however, will encounter unknown climatic conditions and will be compelled to maintain an altitude of about 14,000 feet in crossing the Canadian Rockies and most of the Alaskan route.

When we remember the rough and mountainous condition of Alaska, we can imagine how important it will be, say a few years hence to be able to send our citizens up there their mail by airplane, instead of by the slow and tortuous method now necessary.

On account of the heavy falling off of the gold fever excitement, recent reports say the population has greatly decreased in some sections, and the government has been called upon to give renewed attention to affairs there, there having been an overlook of same during the world war. It is on this account that aerial navigation is looked upon as such an important feature in the future welfare of Alaska.

REPUBLICAN CHIEFS TO BE GUESTS OF FESS AT YELLOW SP.

As guests of Congressman S. D. Fess, Will Hays, chairman of the Republican National committee, Senator John W. Weeks from Massachusetts and Charles D. Hills, former chairman of the national committee, will be in Yellow Springs next Thursday.

Congressman Fess and others will confer with political heads in Columbus, Tuesday, and the three leaders will accompany him home following that conference. After entertaining these men at his Yellow Springs home, Dr. Fess will go to Marion to be present at the gathering in honor of Senator Warren G. Harding, the Republican presidential nominee.

The removal of headquarters of the Congressional committee of which Dr. Fess is chairman, from Washington to Chicago in order to be nearer the seat of political activities, is promise that the village of Yellow Springs will see many political conferences during the pre-election days.

EMPLOYEES GO ON STRIKE, REPORT

PERSHING GIVEN JEWELLED SWORD

General Pershing receiving the sword from Ambassador Geddes.

The British ambassador to the United States, Sir Auckland Geddes, recently presented to Gen. Pershing a magnificent sword, jeweled, chased and engraved in commemoration of the splendid services rendered during the war by General Pershing and the men who fought under him. The sword was a gift from the corporation and city of London, delayed until London's jewelers could be released from their military tasks long enough to fashion the gift with all possible care.

NEW CANDIDATE

Chicago, July 17.—A new political party was aborning today. Under the leadership of Allen McCurdy of New York and Judge Wray of Nebraska, some seventy members of the committee of 48 met to hold an indignation meeting because the committee had failed to name a national ticket and adopt its own platform.

RETURNS TO XENIA AFTER MONTH IN WEST

Martin Berry, who travelled to San Francisco on the Cox-for-President special, and attended sessions of the Democratic National Convention there, returned home Friday evening after a month spent in California.

Mr. Berry visited in San Francisco and Los Angeles, while in California, being entertained part of the time by John McNeary, former Xenian, who is at present superintendent of the mechanical departments of the Hearst papers in those cities. Before his return he travelled up the coast on the Canadian and Pacific. He had a press pass to the convention and sat in the press box with the correspondents.

On his trip to California on the special Mr. Berry acted as a printer on the Big Four paper, which was published daily from a little printing establishment in the baggage car. Newspapermen, writers, editors and printers, helped get out the paper. He will open his job printing office here Monday.

EAST END NEWS

A special effort is being put forth by the Main St. church of Christ to raise money for decorations of the Church. Special services will be held all day July 18, as follows: 10 a. m. Bible School; 11 a. m. special sermon by the pastor J. W. Evans. 3 p. m. a special program will be rendered by the choir with good songs and solos directed by Prof. Watson. Sermon by Rev. Beeton of Zion Baptist Church, 6:30 p. m. Bro. Clarence Smith will deliver a sermon, "A Perfect Day," and "Oh, Lord, how excellent is Thy name in all the earth, who hast set Thy glory above the heavens." He, seeking Thy presence, the peace and comfort of Thy holy spirit. She was thankful for Thy blessings which came to her through this earthly life and we lovingly commit her soul to Thy care and keeping. We know that in Thy house are many mansions, Thou hast a place for her. Her earthly life was closely linked to ours. As wife, mother and friend to the friendless she was most dear to all. Her consolation and strength was her shield and the words of the living foundation of waters and the things of her spiritual life were far reaching and with a wise purpose of a divine Providence life became a real spiritual and abiding source of comfort to her by helping others to live. Ever ready with kind words, a cheerful disposition and we'll miss the sound of the voice and the touch of the hand, and as the poet wrote, "Oh what while I could hear and see."

Such words and looks was heaven to me. Though gross the air on earth I drew. "Twice blessed while she breathed it too!" Though dark the flowers, though dim the sky, Love lent them light while she was night." And Jesus said, "A new commandment give I unto you, that ye love one another as He has loved us" was the comforting words of her Master at the close of a beautiful life.

The floral tributes were many and very beautiful. The pall-bearers were her two sons, Cornelius and Herman, son-in-law C. B. Lewis, grandson Herman, Dr. J. Moore and Mr. Wm. Copeland, friends of the family.

OBITUARY

MRS. H. H. HOLLAND AT REST IN CHERRY GROVE CEMETERY

Funeral services for Mrs. H. H. Holland were conducted at her late residence on East Market St., Wednesday afternoon at two o'clock by Rev. E. A. Clarke, a life long friend of the deceased, assisted by her pastor Rev. P. A. Nichols. Rev. Clarke took for his text the 23rd Psalm. During the services a trio composed of Prof. G. L. Simpson, Miss Helen Ferguson and Miss Alma Lightfoot, sang "What a Friend We Have in Jesus," "A Perfect Day" and "Oh, Dry Those Tears" by Miss Ferguson. "One Sweetly Solemn Thought" by Miss Lightfoot. Solo, Prof. Simpson. Resolutions were read by Mrs. M. Carroll and the obituary by Mr. C. B. Lewis and to the memory of Mother Holland who is now in heaven, she is continually advancing to the Springtime of Life, delightful and happy throughout all eternity, into a beauty which far exceeds the beauty of the eye. Her life was one of cheerfulness, goodness and charity to shine forth from the minutest parts of her face. In a word, to grow old in this sphere is to grow young in heaven. She is the guest of the angels, and we can say "On Lord, how excellent is Thy name in all the earth, who hast set Thy glory above the heavens." She, seeking Thy presence, the peace and comfort of Thy holy spirit. She was thankful for Thy blessings which came to her through this earthly life and we lovingly commit her soul to Thy care and keeping. NEARING 20,000 MARK

Chicago, July 17.—Headquarters of the American Association of Engineers reports its membership is drawing close to the 20,000 mark standing on the last tabulation at 19,554.

STRIKE CLOSES COAL MINES

Scranton, Penn., July 17.—All of the mines of the Pennsylvania Coal Company located between Old Forge and Blainville, south of Pittston were closed today by a strike. The 6,000 men employed demand the abolition of the contract miner system.

WASTED ENERGY.

For many, many weeks to come the orators, brave souls, v. break the welkin out of plumb, and shoot it full of holes. Wherever there's a stump or keg some orator will rise, and talk until he breaks a leg, dispensing truth and lies. The men with messages will spoil the picnic in the dell, and when we'd fain go forth to toil, they'll bind us with a spell. If all their energy and steam were put to sawing wood, high prices soon would be a dream, and prospects would be good. We need strong men to guide the plow and see the pumpkins binned, but all the husky fellows now are busy dishing wind. If every man who speaks a piece would grow some wheat instead one profiteering graft would cease, and we'd have cheaper bread. If every man who takes the stump, our bulwarks to defend, would grab a hoe and blithely hump, another graft would end. For weeks and weeks the ancient tunes will in our ears be din'd, and when we plead for wholesome prunes, they'll merely hand us wind. The energy that's thrown away by orators, oh, chee! If it were put to baling hay, where would our problems be?

CRITICISM IS GIVEN KENT NORMAL SCHOOL IN INVESTIGATION

Charges Irregularities and Lack Of Co-operation.

Columbus, O., July 17.—Severe criticism of the management and operation of the state normal school at Kent, and charges of irregularities, jealousy and lack of co-operation between President McGilvery and faculty members feature a report, made public by state auditor Donahy, covering inspection of the school's records by state examiners. The report recommends a general reorganization of the school.

That secret sessions were held with faculty members by a former member of the board of trustees who sought to carry out plans which he did not have the courage to put through when a member is a claim made in the report.

"Fraud" is the characterization used in connection with the charge that \$6,000 appropriated for the dean's salary was spent after the position had been abolished. The report charged that the money went to a man whose name was carried on the payroll as Dean "in order to fool the auditor of state into issuing warrants against this appropriation."

The report also charged that illegal payments of \$1,895 from the students fund and \$5,663 from the dormitory fund, were made.

STREET BANNERS HERALD COMING OF CHAUTAUQUA

Do you believe in signs? The Red path Chautauqua does.

Have you seen the banners waving in the streets, the flaring posters, the awning daters and window cards, the feature pictures in the bulletins? Those are sure signs that Xenia will be invaded from July 20th to 26th by an army of entertainers. There will be action every minute from the zero hour on the opening day until Joy Night on the final evening.

Miss Faye Cavanaugh is chairman of the local ticket campaign and announces that unusual interest is being shown in the Chautauqua. She urges that all those who appreciate high class entertainment should secure season tickets which are on sale at Mrs. Clara Reutinger's, Mrs. Walter Dean's, at Office Social Service League and Skidoo Restaurant.

The Chautauqua tent is to be pitched on the Robert's grounds.

OHIO SPICE COMPANY SUED

Toledo, Ohio, July 17.—Suit for \$828,200 was brought in Federal court against the Woolson Spice Co. of Toledo. The plaintiff is the Columbia Trust Company of New York executor of the estate of Herman Sienken, sugar magnate.

CAR SERVICE RESUMED

Akron, Ohio, July 17.—A temporary agreement between City Council and the Northern Ohio Traction and Light Company reached yesterday resulted in a resumption of street car service after car men had been on strike for 2 days. The city granted the company five cent flat fare for 60 days and company granted the platform men 65 cents an hour. The agreement was made for 60 days.

EXPECT 50 XENIANS TO ATTEND RALLY AT MARION JULY 22

Fifty loyal Xenia and Greene county Republicans are expecting to attend the Harding Day celebration at the home of the Republican presidential nominee at Marion, Ohio, Thursday, July 22.

Dr. H. C. Messenger and Deputy Auditor Paul H. Cresswell, local Harding supporters are sponsoring the pilgrimage to home of the Ohio Senator on the day when his home town and loyal Republicans all over the state, will be present to do him honor. Prominent Republicans from all over the country are expected to be present.

The local delegation will leave here for Springfield on a special S & X. car at 7 o'clock in the morning, and will catch the special train at Springfield at 8:15. The Robbins & Myers band of Springfield will accompany the party to Marion. The special will leave Marion at 6:20 o'clock Thursday evening and arrive in Springfield at 7:30 from where a special car will convey the local delegation to this city.

Local Republicans are planning to make a gala day of the occasion, and the fifty people who have already signified their intention of making the trip will probably be swelled by others before the time comes. Those wishing to go should report to either Dr. Messenger or Mr. Cresswell.

MRS. IVA RAYBURN DIES ON FRIDAY

Mrs. Iva May Rayburn aged 29 wife of John Rayburn, died at 4 o'clock Friday afternoon at her home in the Mooreland. Complications following the birth three weeks ago of a son, caused her death.

Mrs. Rayburn's maiden name was Iva May Riley. She was married to John Rayburn November 11, 1919. She is survived by her husband, her infant son, William Garry, her parents, Mr. and Mrs. Joseph Riley, and the following sisters and brothers: Mrs. Clark Melyin, of Clark's Run; Charles F. of Trebrens; Alva W. of New Jasper, and Pearl Joseph and Anna Elizabeth at home.

The body was removed to the home of Mr. and Mrs. Rdy Ary, 26 West Second street, where funeral services will take place Monday at 2 o'clock. Friends may call at the Ary home after 2 o'clock Sunday.

MRS. M. HOLLAND DIES AT SP. VALLEY

Mrs. Mary Matilda Holland, age 65 years, widow of John Holland, died at 5 o'clock Wednesday afternoon at her home in Spring Valley. Heart trouble and complications caused her death. She had been in ill health for some time but was stricken suddenly worse Wednesday.

Mrs. Holland was born in Spring Valley and spent all her life there. Her maiden name was Mary Matilda Starr. Her husband died nine years ago and she is survived by three children: Samuel, of Spring Valley; William, who lives near Spring Valley; and Mrs. William Reeves, whose home has been with her mother; a sister, Mrs. Harriet Swabb, of Xenia; a half sister, Mrs. Joseph Hultz, of Albany Ind., and two half brothers, E. E. Lighthiser, of Xenia, and Charles Dighthiser, of near New Burlington.

Mrs. Holland was a member of the Friends church at Spring Valley, where funeral services will be held Sunday at 2 o'clock.

"SMILES"

The mistress of a new servant and gave her instructions how to behave when answering her bell. That evening she rang for a glass of milk and was surprised to see Martha appear with the glass grasped in her hand.

"Oh, Martha," she said, "always bring the milk to me on a tray."

Martha apologized and promised to remember in the future. The next evening the bell rang and the same request was made. This time Martha appeared with the tray and the milk emptied into it. Anxious to please, she curtsied and inquired:

"Shall I bring a spoon, ma'am, or will you sup it up?"

The girl was putting up the Easter decorations in the church, when the vicar happened to look in. Seeing some tacks lying about in the pulpit, he said: "You should not leave the tacks there, Katie. Now what would happen if I stepped on one in the middle of the sermon next Sunday?"

"Oh, well," said Katie, "there would be one point you wouldn't linger on long, anyway."

An irritable dyspeptic was advised by his physician to take up golf to improve his health, and went to purchase an outfit.

"I suppose I've got to play the game because it's doctor's orders," he remarked ruefully; "but I never could make out what the attraction of the game is."

"Well," replied the dealer, "there's one thing about it; so far as I know, it's the only game at which you can praise a lady's for mwithout being impertinent."

RUSS STILL BATTLE POLISH FORCES

London, July 17.—A communique from the soviet war office at Moscow reports fighting still in progress between the Russians and Poles despite the effort of the allied statesmen at St. to bring about an armistice. The text of the communique follows:

"In the Vilna sector we defeated the Poles southwest of the Vileika river. We drove back the enemy west of Mordetchno. We are continuing our advance in the region of Vilna and also in the sectors of Searny and Kovel."

SHOOTING THE RAPIDS

The recent fatal trip of C. G. Stephens, who went over Niagara Falls in an oak barrel, recalls to mind Mrs. Annie Edson Taylor, who went over in October, 1901, and lives to tell the tale. Mrs. Taylor also went over in an oak barrel. She made the trip in nine minutes. The only other living person who successfully made the trip is Bobby Leach. Both of these survivors live in Niagara Falls.

Heart and Home Problems

Dear Mrs. Thompson: I am in a frightful mess. About three months ago I met the prettiest girl I have ever seen and fell in love with her the first time I was with her. We saw each other often then.

One evening we were invited out to dinner and during the dinner our hostess asked about her mother. She said the most unkind things I have ever heard a girl say of her own mother. She called her unreasonable and set as a mule. Perhaps she told the truth, but even so I did not like her so much after saying that. My own mother has always been so wonderful to me that it hurt me more than I let the girl know.

After that I wasn't quite so interested and I became more critical. I noticed that she lacked sympathy entirely and was selfish and hard in her judgments.

Before she said that about her mother we had become engaged. We are still engaged, but I feel I cannot marry her under the circumstances.

Do you think it would be fair to break the engagement?

ORRIN.

It is my belief that it is better to break an engagement than to enter into a loveless marriage. I think you should ask the girl to release you.

Dear Mrs. Thompson: I have been married five months and love my husband dearly. He has his faults, of course, but most of them are not bad ones. He does one thing which is very annoying. He forgets to come home from work. I try to get up the best possible meals and then when I have the best he doesn't come home until an hour or two late when everything is cold and spoiled.

I have asked him to let me know when he intends to stay away, but he does not. He always promises that he will the next time, but then he forgets.

Do you think I am unreasonable to object to this?

YOUNG WIFE.

No, you are not unreasonable to object. Any woman would be annoyed and disappointed to have her husband come home late when she has prepared a good meal for him. Your husband would probably remember to telephone if he had to get his own dinner when he returned home late. His thoughtlessness is inexcusable.

Dear Mrs. Thompson: I am thirty-three years old and have been married twelve years. My husband is good to me and we care as much for each other as can be expected after twelve years. We have two dear little girls and he would do anything for them.

There is one thing about my husband I do not like. He won't smoke a cigar the way other men do, but instead he smokes a pipe. He looks and acts like an old fogey with it, I think.

One thing makes me especially angry. He goes to bed before I do and takes his pipe and newspaper and he smokes in bed. I have said he must not do it, but he keeps it up anyway. What can I do?

TILLIE.

Why do you object to your husband's smoking in bed? If the smell of the tobacco keeps you from sleeping or if he burns holes in the bedding you have every reason to object.

If you are not annoyed by the smell of the tobacco and if he does not burn holes in the bedding, let him have the comfort of doing as he pleases. That time in bed with his paper and pipe probably contributes a great deal to his contentment. Let him enjoy himself unless you have some very good reason for objecting.

Thousands of cases of dyspepsia BUT ONLY ONE PEPSINCO

PEPSINCO is the only indigestion remedy that we know—and we know lots of so called dyspepsia cures—that will almost infallibly relieve an attack of indigestion, food distress or gas. We could almost make claims that would appear impossible, so seldom does this PEPSINCO fail. But why not consider the recommendation of thousands of people who have used PEPSINCO on the basis of their belief in it. Try it yourself. We are sure that the suggestion will appeal to you—you who suffer with indigestion or stomach faults—try PEPSINCO to-day.

Ask your druggist—he sells and recommends Pepsinco.

TWO DECK BOYS DROWN IN HARBOR

Baltimore, Md., July 17.—Bertie Condon, 17 years old, of Tilbury, Essex county, England, and Arthur Wood, 15 years old of Pole, Dorset county, England, deck boys on the British steamship Mississippi, were drowned while bathing in Baltimore harbor late last night. The bodies were recovered late today by the crew of the police boat Lannan. Thomas Wood, engineer-storekeeper aboard the ship and father of Arthur Wood, made an heroic effort to save the lives of his son and the boy's companion.
